Work Experience

Ritchie Bros
UX + UI Designer
May 2021 - Present

I designed the user experience and interface for native mobile. The features that I worked on are the auction page, product detail page, timed bidding, search and search results. I understood how people bid on web and made sure the mobile experience is consistent with the web with native elements. I worked with the team to create a style guide and component library.

ScopeMedia Inc
UX + UI Designer
Nov 2020 - May 2021

I developed brand guidelines and revamped the company's website. Created mockups and prototyped upsell SaaS products using Figma. Managed three interns by assigning them tasks and providing them with feedback.

Daiya Foods
Graphic Design Intern
Sep - Dec 2019

I designed and updated print and digital ads, posters, sell sheets, packaging and swag items using Illustrator and Photoshop. Some tasks that I did are photo masking and manipulation. Contributed ideas and offered input during creative meetings.

Education

BrainStation
User Experience Design Certificate
2021

Simon Fraser University
Interactive Arts + Technology
Bachelor of Arts
2017 - 2020

Skills

Figma	Premiere Pro	HTML
Photoshop	Lightroom	CSS
Illustrator	Autodesk Maya	Webflow
InDesign	Microsoft Office	

Interests

When I am not at work, you can find me cycling on my favourite bike path up Prospect Point along Stanley Park. On occasions, I may whip up a cake. My favourites are earl grey and matcha!
